ARTIFICIAL INTELLIGENCE DISRUPTION

Do you want to build your career in the biggest AI phenomenon to sweep the world in the coming future? Millions of professionals across the globe are ramping up their skills and knowledge to launch their careers in Artificial Intelligence. The global AI market size gears up for exponential growth reaching **USD 757.58 billion** in 2025; compounding into **USD 2156.75 billion** by 2031 (*Precedence Research*). This is further boosted by advancements while accelerating the demand for AI professionals and creating millions of new jobs today and in the future.

The World Economic Forum predicts Artificial intelligence will create around **12 million** new jobs globally by 2025. The IT Talent Trends 2025 report surveyed over **500** IT professionals and reflects that by 2030; **66%** of IT employees anticipate greater autonomy in their roles; enabled by generative AI. It further reveals that **65%** of organizations anticipate structural changes due to incorporating generative AI into their strategies; indicating a transformative impact. As is globally validated; a duly certified AI consultant can earn over **USD 193,745** as an average annual salary in the USA (*Glassdoor*).

CERTIFIED **ARTIFICIAL INTELLIGENCE CONSULTANT** – CAIC™

CAIC™ is the most effective cross-platform certification program for Artificial Intelligence professionals looking for more challenging and impactful AI and ML Consultant roles. CAIC™ professionals can develop and deploy data systems related to AI, design, develop, and troubleshoot technical applications on neural networks, and enhance the precise way of approaching problems such as translation, speech recognition, and image classification.

CAIC™ helps you gain exposure to the latest algorithms, tools, techniques, architecture, and frameworks used in AI & ML to solve real-world business challenges. It will also help you understand data and how AI & ML can be leveraged to create a data-driven organization. Artificial Intelligence can be applied to many different domains, and the CAIC™ credential is the most assured route for an AI/ML Consultant Role.

PROGRAM FEE: US \$894

(*ALL INCLUSIVE)

*CAIC™ covers all the latest and industry-relevant AI topics through Study books, eLearning materials with workshops, and hands-on videos under the self-paced training module. You can master CAIC™ in just 8-10 hours/week of AI learning.

THE **ELIGIBILITY** CRITERIA

Ways to Become a CAIC™

A Preview of the Certification Process The following are the specifics of what it takes to become a CAIC™. There are FOUR convenient paths covering Artificial Intelligence professionals from diverse backgrounds and experience to earn a CAIC™!

PATH 01

Required minimum Qualification

Must have an **Associate Degree or Diploma** or equivalent in any academic discipline, preferably STEM, and willing to learn AI, ML, and more.

Required Work Experience

At least **six years** of experience in any programming language; however, proficiency in using Python/R/JAVA is desirable.

PATH 02

Required minimum Qualification

Must have a **Bachelor's degree** or equivalent in any academic discipline, preferably STEM, and willing to learn AI, ML, and more.

Required Work Experience

At least **two years** of experience in any programming language or engineering/ finance/ management/ statistics, etc.

PATH 03

Required minimum Qualification

Either completed or pursuing Master's Degree or equivalent in any academic discipline, preferably with STEM, and willing to learn AI, ML, and more.

Required Work Experience

Work experience is not required, however, basic proficiency in any programming language or Engineering/ Finance/ Management/ Statistics, etc. is desirable.

PATH 04

Required minimum Qualification

Must have **completed CAIE™ or other equivalent** certification.

Required Work Experience

At least **four years of experience** for a candidate who has completed an Associate Degree or Diploma or equivalent and one year of experience for a candidate who has completed Bachelor's degree or equivalent.

GETTING THE **CAIC™**

A Preview of the Certification Process

The world-renowned CAIC™ certification must be earned through the well-crafted certification process by USAII®. The process is simple and is carried out through six steps. Below is the representation of the process.

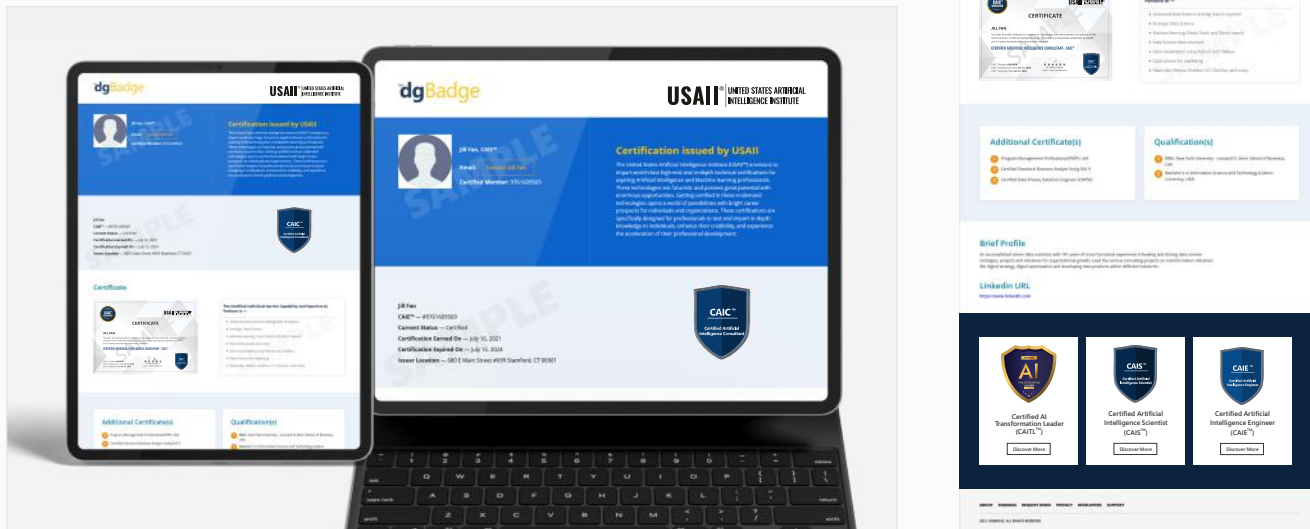

The CAIC™ Certification Process

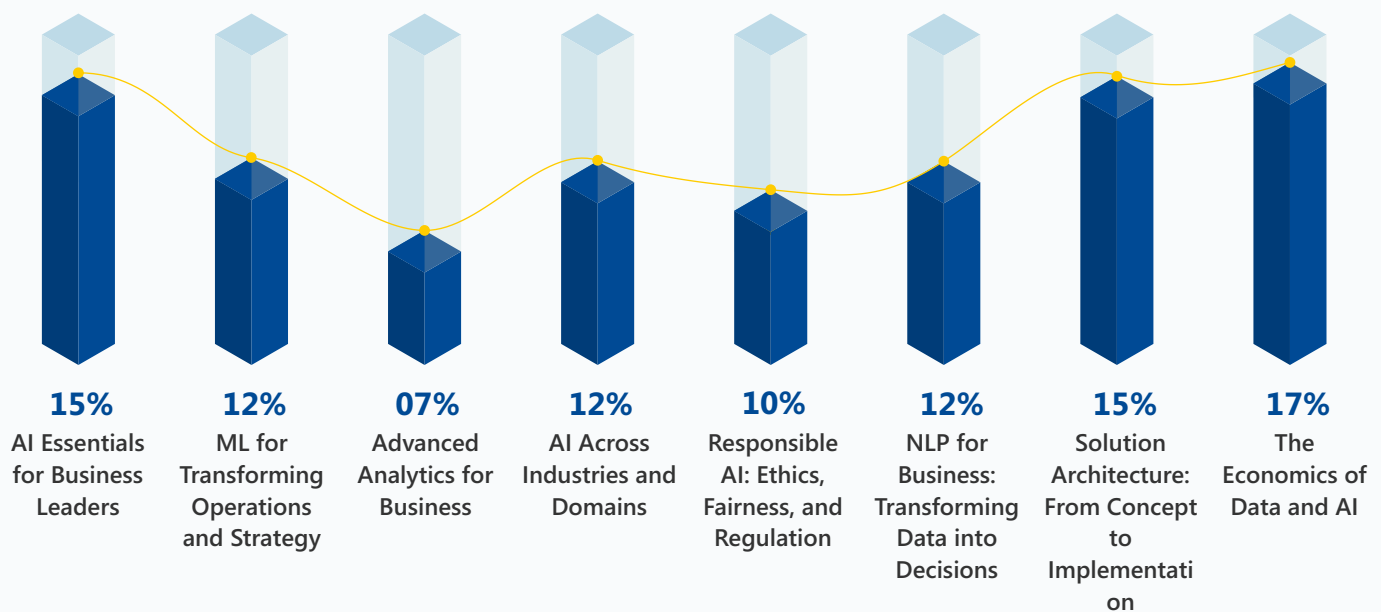

THE **DIGITALLY BADGED** CAIC™

On completion of your certification program, you will be awarded with your certificate for the chosen program and you will also receive a world-class digital badge for lifetime. This digital badge can be showcased across various channels and platforms such as LinkedIn, Facebook, X, emails, chats, etc.

EXAMINATION COVERAGE **INFORMATION**

Packed with leading-edge Artificial Intelligence trends and high-end professional knowledge and capabilities, the CAIC™ program curriculum is meticulously planned and designed to counter any demands of an emerging AI Consultant.

RESOURCE CENTER

To become a Certified Artificial Intelligence Consultant (CAIC™), you must prepare thoroughly for the rigorous skill assessment at the end of this self-paced program. To help you with your preparation, USAII® will provide you with the meticulously developed 'resource center' which is vetted and verified by the world-renowned 'USAII® Artificial Intelligence Advisory Board (AIAB)' that comprises of the best subject matter experts and influencers of AI, ML, and Data Science like CTOs, CIOs, Head of Technology, Delivery Directors, AI, ML and Robotics Influencers, Data Scientists, Technology Leaders, and many from fortune 500 companies. We update our curriculum at regular intervals to stay relevant and reflect the trend of AI, ML, and related technologies.

STUDY-BOOKS

The resource center includes USAII® Study-Book 1 and Study-Book 2 – all these e-books cover advanced Artificial Intelligence, Machine Learning, and relevant topics like Deep Learning, Reinforcement Learning, Python, and more specially designed for the CAIC™ candidates.

E-LEARNING

You'll get to view and learn from the best e-learning program for CAIC™ certification which includes relevant collection of self-paced videos that will help you know the latest technological advances in Artificial Intelligence and how to build your fundamental knowledge of it. This e-learning module will also introduce you to the finest workshops that talk about real-world projects and use cases.
